## Hi — I'm Lakshya

A passionate student building clean, simple web experiences with HTML & CSS. I like turning ideas into small projects and learning every day.

[See my projects](#)[Contact me](#)

### About this site

This portfolio demonstrates HTML structure, CSS styling, a navigation bar that appears across pages, use of float and flexbox for layout, and a contact form. Use the menu above to explore each page.

#### Projects

Small web projects built with only HTML & CSS — responsive-first and student-friendly designs.

#### Skills

HTML5, CSS3, layout with floats & flexbox, basic accessibility, semantic markup.

#### Contact

Want to collaborate or ask something? Use the contact page to send a message.

## About Me

I'm a student with a strong interest in web development and UI design. I enjoy creating clean, minimal pages that are easy to use and maintain.

I focus on learning fundamentals—semantic HTML, CSS layout techniques (floats and flexbox), and accessibility basics. I'm always building small projects to practice new concepts.

Outside coding I like reading, problem solving, and exploring design inspiration. I enjoy collaborating with peers on projects and learning from feedback.

I aim to grow my skillset and contribute to projects that make useful, simple experiences for people.

Lakshya Srivastava

Home About Skills Contact

## Skills & Projects

**HTML & Semantics**

Clean, semantic HTML structures for accessibility and maintainability.

**CSS Layouts**

Float-based layouts and modern flexbox arrangements for responsive pages.

**Student Projects**

Portfolio pages, landing sections, and small UI experiments built with only HTML & CSS.

### Project Cards

**Portfolio Landing**

Minimal landing page with hero and contact CTA.

**Skills Grid**

Cards aligned with flexbox to show skills and short descriptions.

**Contact Form**

Styled contact form using only HTML and CSS inputs.
